Welcome to our 1-year Fellowship Program

The aim of this program is to **extend your knowledge and experience** by attending to surgery procedures at our Center, under the supervision of Professor Federico Hernandez Alfaro, **Director of our Maxillofacial Institute**.

During this fellowship you will learn not only **the most innovative techniques** designed by Prof. Hernandez Alfaro and his team, but a whole **different approach** to diagnosis and planning, and a series of meticulous processes that lead to **excellence**.

You will be fully incorporated to our surgical team, which will allow you to have a **comprehensive and thorough insight** of the planning and execution of orthofacial surgery procedures, and the day-to-day functioning of a Reference Center in Oral and Maxillofacial surgery.

At the end of the program you will receive a **Certificate of Completion**.

* 1 fellow per year

This Fellowship includes:

- Participation in **clinical activities** in the Institute, accompanying the members of our surgical team and staff.
- **Clinical evaluation** of surgical cases of all kinds of maxillofacial procedures
- Treatment planning, **methodology** and applied **criteria** according to our innovative approach.
- Learning our **3D planning methods** and software
- Attendance to patient's **clinical evaluations** and examinations
- Assistance as observer to **surgical interventions** performed by Prof. Hernandez Alfaro and his surgical team
- Participation in **research projects**.

Price:
100.000€

Location

Our Maxillofacial Institute is located at the Teknon Medical Centre, an International centre of reference for health.

Instituto Maxilofacial
Calle Vilana 12
Practice 185, 3rd. floor
Barcelona, Spain
08022
