Welcome to our 2-week Clinical Clerkship

The aim of this program is to extend your knowledge and experience by attending to orthognathic surgery procedures at our Center, under the supervision of Professor Federico Hernandez Alfaro, Director of our Maxillofacial Institute.

This clinical clerkship will give you a thorough insight of the planning and execution of orthofacial surgery procedures, as well as a good understanding of the methods and techniques used in our Maxillofacial Institute.

At the end of the program you will receive a Certificate of Completion.

Price:
15.000 €

This Clerkship includes:

- Participation in clinical activities as an assistant/observer.
- Clinical evaluation of surgical cases.
- Learning of treatment plan, methodology and applied criteria according to our innovative approach.
- 3D planning sessions
- Assistance as observer to surgical interventions

Location

Our Maxillofacial Institute is located at the Teknon Medical Centre, an International centre of reference for health.
